

Dirt and Neglect are the top cause of heating and cooling system inefficiency and failure. To ensure energy efficient system operation, it is important to perform routine maintenance. Proper maintenance by qualified technicians is one of the most important steps you can take to prevent future problems.

Testimonials

"Stu just left after doing some stellar maintenance on our ancient furnace. He had great and reasonable suggestions to keep our house cozy. Highly recommend!"

– Amy

"Prompt service... even on a holiday weekend! Great job... highly recommend! Thanks Team Bob's for helping us stay warm!"

– Clay & Lisa

"Mike did my annual inspection of my furnace and A/C. He was friendly, fast, and efficient. Mike made sure I understand how everything worked! Thank you, Team Bob's, for coming out!"

– Joann

"Travis just did a furnace checkup and was so informative! He went through all the check points, answering my many questions. He was on time and friendly. He did a great job and I feel confident I am in for a warm and comfortable winter. Thanks Travis and Team Bob's!"

– Paula

"Thank you, AJ, for repairing our furnace today! Excellent service!"

– Diane
